New teaching methods are developed all the time. But often cutting-edge presentation lacks substance. Learn practical guidance from the greatest teacher Himself, Jesus Christ. With creative ideas for any teaching situation, pattern your training style to create long-lasting, lifelong change in those you teach. You'll learn to mirror Jesus' teaching principles and become a rock-solid teacher.

**Have we given those we ask to teach our children, youth, and adults
the training they need to be effective teachers of the Word?**

You'll discover:

- How to study a Bible passage in order to teach it to a specific age group.
- The best way to motivate students.
- How to summarize the life-changing theme of a lesson.
- How to create an excellent learning environment.
- How to gain confidence in your teaching ability.
- The discipline plan you need for each teaching situation.
